**OEKO-TEX® Standard 100 (15.0.70467)**

OEKO-Tex® CONFIDENCE IN TEXTILES STANDARD 100 15.0.70467 HOHENSTEIN HTTI Tested for harmful substances. [www.oeko-tex.com/standard100](http://www.oeko-tex.com/standard100)

**OCS Standard blended**

The Organic Content Standard (OCS) enables Daiber Textiles to record the exact proportion of organic material in a product during production and to track it throughout the production chain. The overarching 'Content Claim Standard' defines, among other things, the traceability of goods and transparency in the production chain for the OCS.

**RCS blended**

PET bottles are recycled into new fashion items. Plastic bottles are crushed, melted down and spun into new yarns, some of which are used in production up to 100%. The Recycled Claim Standard (RCS) stands for independently verified recycled materials, transparent supply chains and fair, environmentally friendly and healthy-conscious production conditions.
